

LSE15 Support local partnerships of schools to take greater responsibility for achievement and learning for all children in their local community

- Establish at least one Children Centre in each district by 2005 to meet the identified needs of local communities and to provide integrated early years education and family support
- Roll out the Extended Schools programme (or other extended provision) with an emphasis on services targeted at local need
- Implement admissions arrangements which simplify and speed up the admission of children from vulnerable groups
- Through local school partnerships establish a culture where groups of schools take responsibility and accountability for children and young people in their local community

LSE16 Integrate children's services in target schools (e.g. Extended Schools and Children Centres)

- Provide training to managers, governors and staff
- Identify and implement a range of models for leadership and management within integrated settings to promote best practice
- Establish quality assurance monitoring to meet required standards
