

Waste Development Plan Responses

Appendix B

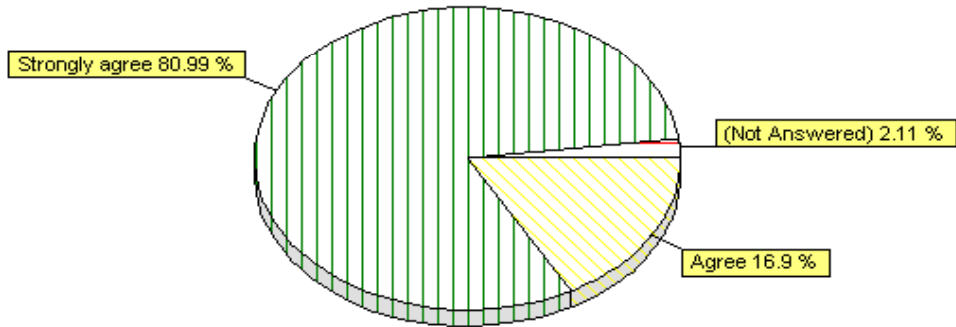

Question 1 We all need to reduce the amount of rubbish we produce in Hertfordshire

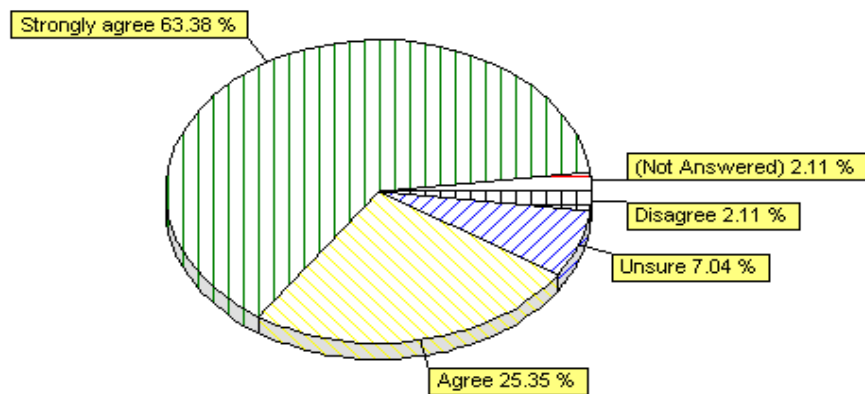

Question 2 We should all be concerned about what happens to our rubbish

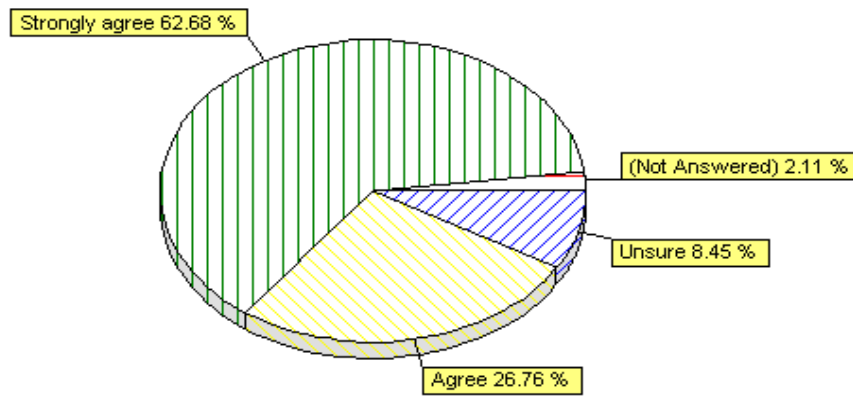

Question 3 It is important that every Hertfordshire resident 'do their bit' to reduce the amount of rubbish that ends up in Landfill sites

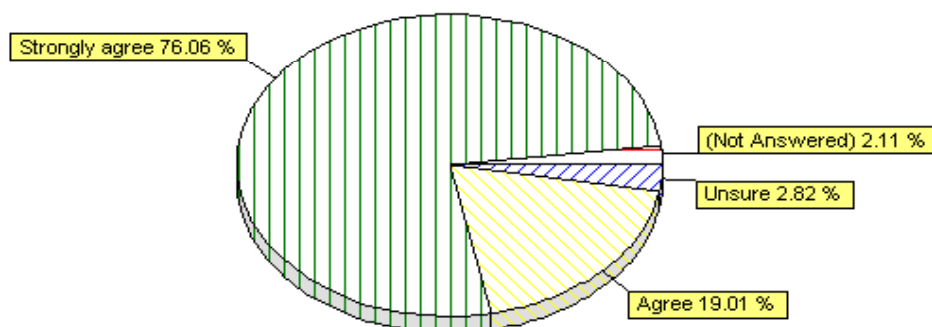

Question 4 Hertfordshire should lead the country in reducing, reusing and recycling waste to ensure that minimal amounts end up in landfill sites

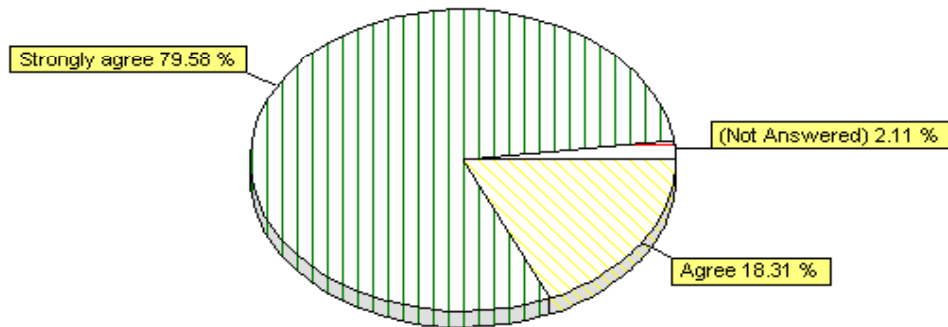

Question 5 Hertfordshire should use new and different technologies to manage the amount of waste produced in the county

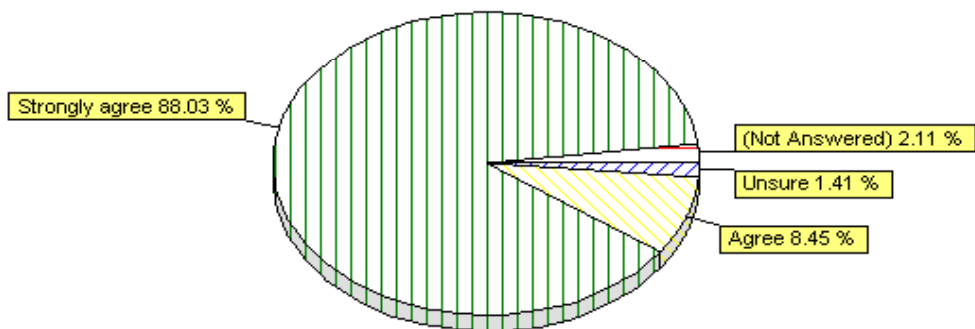

Question 6 Waste disposal companies should also take responsibility to ensure minimum amounts of waste end up in Landfill sites

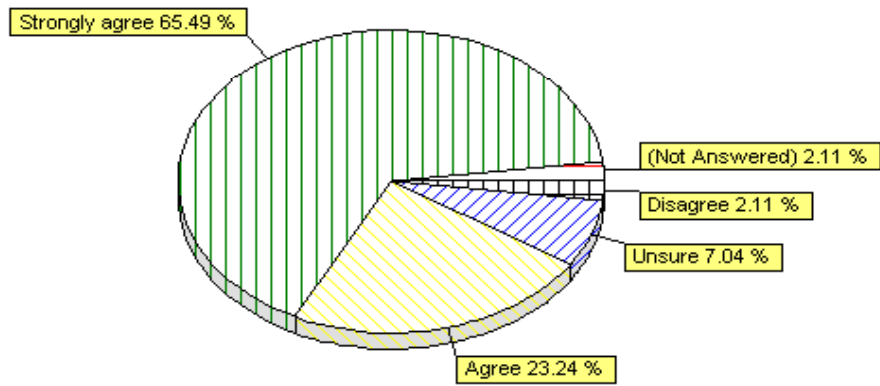

Question 7 We should plan ways to enable us to reduce and minimise the amount rubbish we produce in Hertfordshire

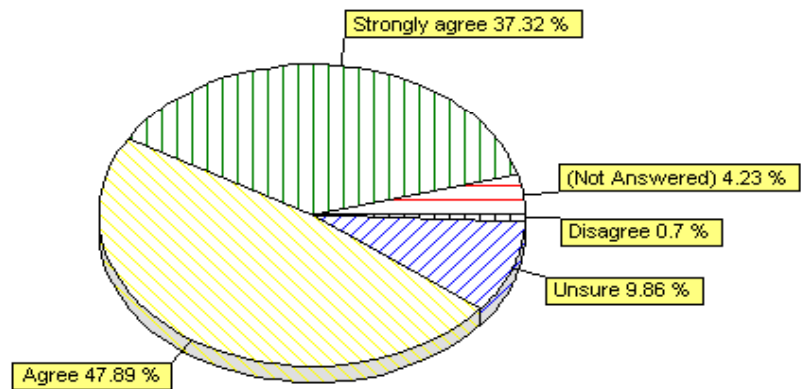

Question 8 The plan should encourage companies to use minimal amounts of packaging on goods and products

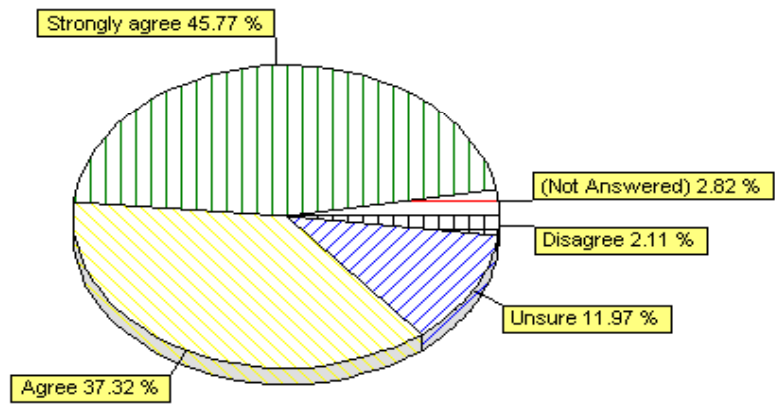

Question 9 We should plan to provide sufficient waste management facilities in Hertfordshire to deal with all the rubbish we produce in the county

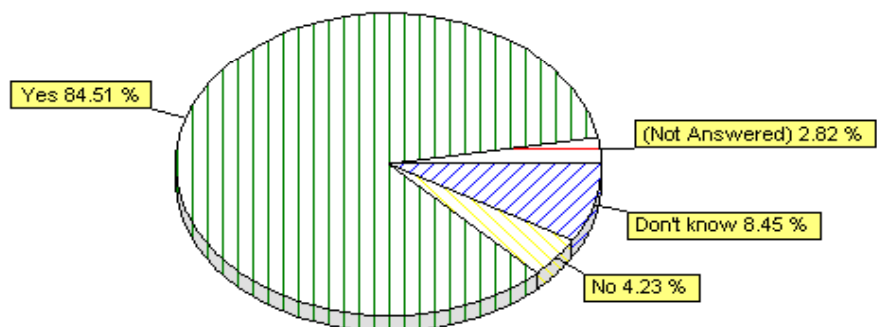

Question 10 The plan should recognise that waste management generates employment

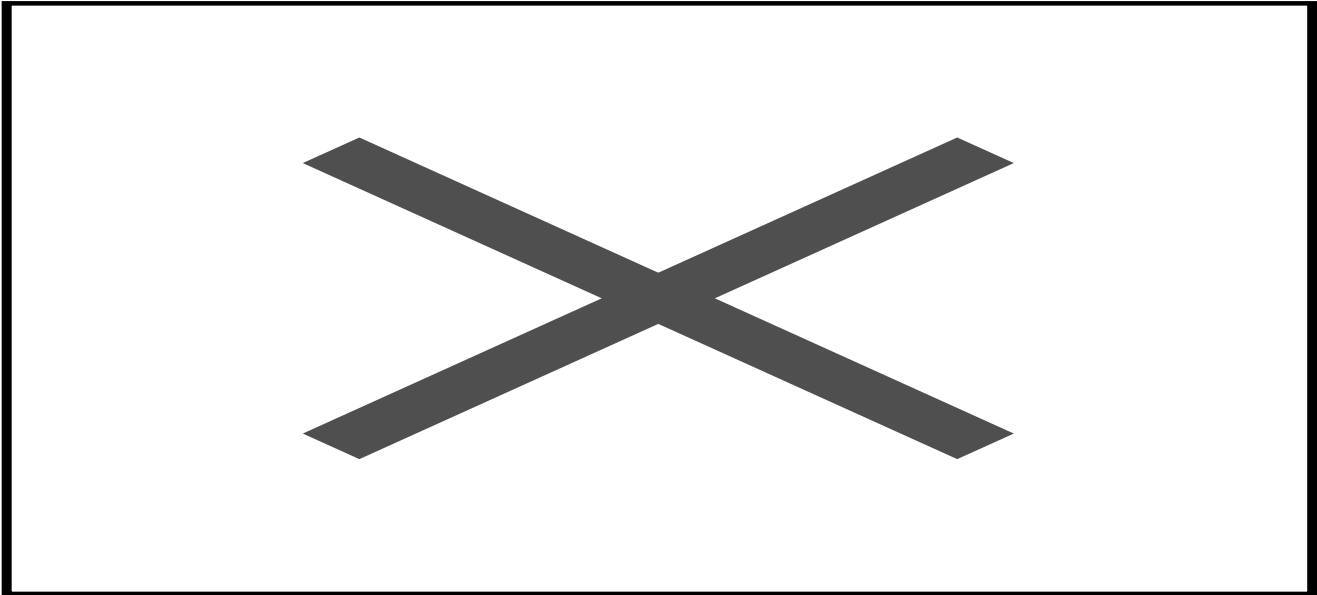

Question 11 The plan should locate sites in the county for rubbish to be recycled and disposed of as close as practicably possible to the origin of the waste

Question 12 Did you find the information on the Waste Development Plan informative?

Question 13 Did you find the information on the Waste Development Plan clear and helpful?

Question 14 Would you like to have your contact details put on a mailing list so that you receive material in the future?
